CENTRAL AIR CONDITIONING REGULATIONS **CALL THE BLDG. DEPT. AT 847-546-0963 FOR INSPECTIONS**

Building permits expire one year from the date on the permit. However, if work has not started within six months of the date of the permit, the building permit is void.

Call JULIE at 1-800-892-0123 for location of utilities prior to digging.

No change to the approved plans is authorized without prior written approval by the code official and only the construction indicated on the attached plans is authorized by the issuance of this permit.

Permit application Guidelines:

1. Submit to the Round Lake Building Department for review:
 - a. Building permit application.
 - b. Two copies of the plat of survey dimensionally locating the air conditioning unit with respect to side or rear yard.
 - c. Provide two copies of the specifications for the air conditioning unit.
 - d. Homeowner's Association approval letter if applicable.

Conditions of permit:

1. Conduit run inside must be E.M.T. minimum.
2. Conduit run outside must be rigid or I.M.C.
3. Outside flexible conduit must be seal-tight.
4. All work is to be done according to the 2005 NEC and the Village of Round Lake electrical amendments.
5. **See the attached sheet for an example of central air installation.**

Location:

The central air conditioning condenser shall be located in the side or rear yard only.

Required Inspections:

1. A final inspection of the condenser location and disconnect is required. The Building Inspector will need inside access for this inspection.

It is the contractor's and ultimately the owner's responsibility to know the village code provisions. The owner or his agent is responsible for constructing all permitted work in compliance with village codes. Failure to identify any aspect of the proposed design not in compliance with the village code during plan review does not relieve the owner of the obligation to achieve full village code compliance. The Code Official cannot list all code sections on the drawings or documents.
